

PORTFOLIO

The essence of our accomplishments

ELEMENTS OF PERFECTION

Full service approach for contract textiles

CONTRACT TEXTILE FURNISHING

PRODUCTION OF TEXTILE

The basis of tastefulness

Rolf Krebs produces your individual contract fabric, whether you choose from one of our collections or you would like to realize your very own creative idea. Even if that is „only“ the idea to create a low cost and robust alternative product.

At any rate, dealing directly with the producer you will save on your budget anyway.

ALL-IN-ONE-OFFER

Turnkey contract service

Rolf Krebs joins you in your project efforts from scratch.

Rolf Krebs' full service approach consists of many elements: Technical and design consulting, sampling and mock-up rooms, global offer and comprehensive fulfilment.

Turnkey, that means to Rolf Krebs that there is one experienced project manager to take care of all your needs and wishes.

CRAFTSMANSHIP

Bespoke service

Bespoke service is what makes a textile become a comfortable soft furnishing. No matter if you choose from one of Rolf Krebs collection, or if we order a material from one of the textile editors on your behalf, Rolf Krebs' team will treat all items with equal care and turn them into curtains, draperies, blackouts, cushions or bed throws for your project.

Rounding off the service portfolio, Rolf Krebs also installs all products on site using proven and specialized accessories and technologies.

Textiles for your project

CONTRACT FABRICS

The basis of tastefulness

Choose from the vast collection of flame retardant, robust and contract focused qualities and designs made by Rolf Krebs to make your project become unique.

With Rolf Krebs, each project is a bespoke customization – in every respect. Even as far as the fabric itself is concerned, Rolf Krebs starts with the client's ideas, the client's design and colour concepts to develop an individual custom-made product.

Use the force of colour:
With Rolf Krebs' Designconfigurator you develop your own creative idea. And Rolf Krebs produces it. Even if it is "only" the idea to cut cost.

We give style and live to rooms

Rolf Krebs' idea of contract textiles goes beyond the fabric itself. Each and every project is tailor made.

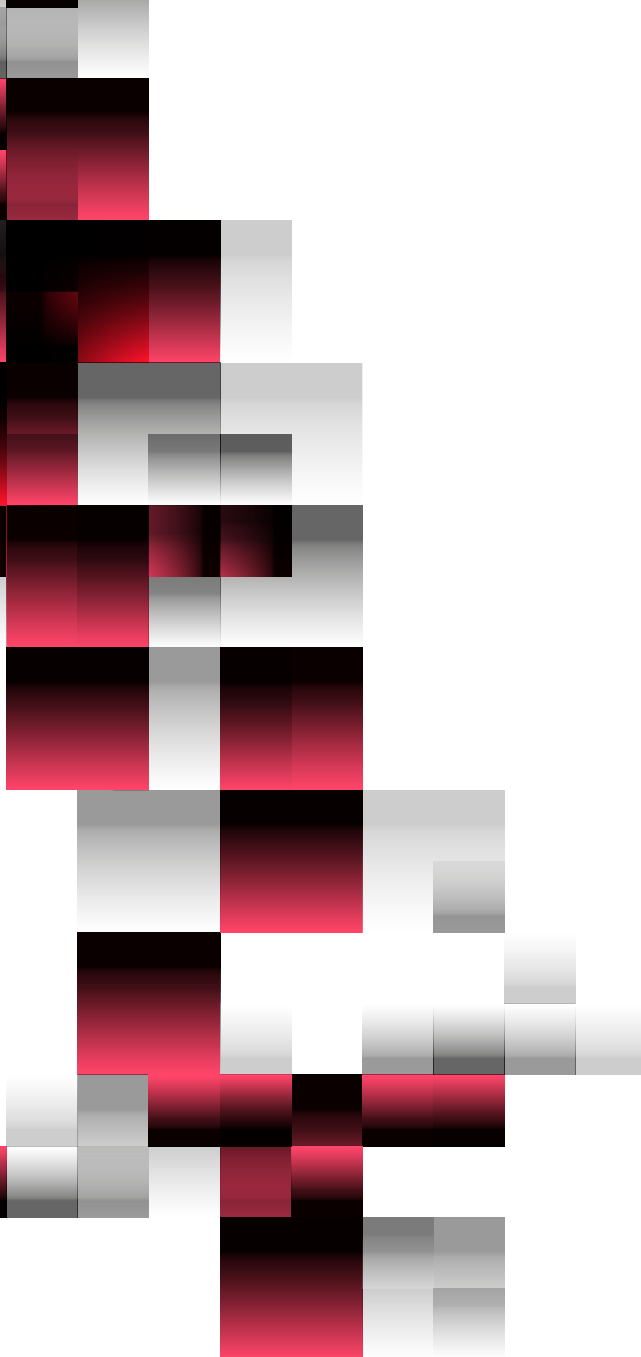

We offer all services needed for your project – starting with taking measurements, continuing with sewing and finishing with installation on site.

In addition to processing our own fabrics, we use customer furnished material or offer fabrics from well-known brands and textile editors.

Using Rolf Krebs' project services there is no need to coordinate different suppliers for fabrics, service and accessories. Just lean back, we deliver. In time. Precisely. Accurate.

TECHNOLOGY

Design lightly.

At Rolf Krebs we are specialists when it comes to design and guide the sunlight.

If you need to black out the light in conference room or control the sun's heat on your terrace or just want to get done with the reflexions on your computer's screen, Rolf Krebs offers the right solutions and products from motor operated curtain tracks to awnings.
